

— PENNSYLVANIA. BUILT TO ADVANCE. —

2014 Annual Legislative Report

on the Keystone Innovation Zone Tax Credit
and Tax Credit Sale programs

The Corbett administration is pleased to present the 2014 Annual Legislative Report on the Keystone Innovation Zone (KIZ) Tax Credit and Tax Credit Sale programs.

Gov. Corbett's push to assist Pennsylvania's startup companies and entrepreneurs resulted in an unprecedented 227 KIZ companies qualifying for the 2014 KIZ Tax Credit. This increase of over 12.4 percent in companies approved, coupled with the record-setting growth to more than \$17.1 million in Tax Credits awarded highlights the continued strengthening of the commonwealth's economy.

The governor's emphasis on having entrepreneurs and startup businesses network with Pennsylvania's world-class educational institutions is paying high dividends. The synergy created through this networking is creating new technologies and products and hundreds of innovative, high-paying jobs for our citizens.

Overview

Administered by the Ben Franklin Technology Development Authority (BFTDA), the Keystone Innovation Zone Tax Credit (Tax Credit) program provides for the award of up to \$25 million annually in tax credits to qualified Keystone Innovation Zone (KIZ) companies. Eligible KIZ companies can receive tax credits for up to \$100,000 annually. To be eligible, a company must be a qualified KIZ company and meet the following requirements:

- 1) Be a for-profit entity located within the geographic boundaries of a BFTDA-designated KIZ
- 2) Demonstrate that it has been in operation for less than eight (8) years
- 3) Operate within one (or more) of the targeted industry sectors identified by the KIZ and its regional partnership
- 4) Provide semi-annual reporting measures to the Department of Community and Economic Development (DCED) through its KIZForce reporting tool
- 5) Meet any other requirements as specified by DCED

Since the program launched in 2006, hundreds of Pennsylvania's early-stage technology companies have received tax credits through this innovative program. Recipient companies have five years from the date of the award to either use, sell or assign the KIZ Tax Credits. KIZ companies choosing to sell their unused tax credits can either sell them directly or secure a third-party, independent agent to facilitate the transaction on their behalf.

KIZ Tax Credit Awards

Chart 1, below, demonstrates the number of awards made to KIZ companies between 2006 and 2014, while Chart 2 demonstrates the dollar amount of tax credits awarded to the KIZ companies during the same period. Appendix A highlights the company's name, its KIZ-affiliation and the dollar amount of KIZ Tax Credits awarded in 2014.

CHART 1

Number of KIZ Companies Awarded KIZ Tax Credits by Year

CHART 2

Amount of KIZ Tax Credits Awarded by Year

“Actuated Medical, Inc. (AMI) develops and manufactures state-of-the-art medical devices that incorporate advanced controlled motion technologies...[that] allow clinicians to perform faster, easier and safer procedures. Our first product line, TubeClear, a device to clear clogged feeding tubes, has received FDA clearances...In 2013, we launched our second product line, GentleSharp, a device that reduces stress during blood sampling...[W]e have five other medical devices to be launched between 2014 and 2018. AMI has been fortunate to be eligible for the PA KIZ Tax Credit program. The funds have been used for various items to grow AMI. Patent costs, manufacturing facility upgrades and regulatory submissions are just a few. The impact of the funds is evident as AMI exhibited a 26% growth in employees between 2012 and 2013.”

- Maureen Mulvihill, President of Actuated Medical, Inc. in Bellefonte, PA (the I-99 Innovation KIZ)

KIZ Tax Credit Sales/ Assignments Program

This component of the KIZ Tax Credit program gives KIZ companies the opportunity to sell or assign any of their unused tax credits for cash. The amount generated on the sale of the credit is determined on several factors, including if the company uses the services of a broker, how quickly the sale is completed or if the sale is part of a “bundled sale,” often coordinated by a broker. KIZ companies historically have received between 88 cents and 92.8 cents on the dollar when selling their tax credits. Appendix B details the names of the buyers and the amounts of KIZ Tax Credits they received through this process in 2014.

Chart 3 reflects the number of sales and/or assignment applications approved by DCED each year since the Sales/Assignment program launched in 2007.

Chart 4 identifies the amount of KIZ Tax Credits sold or assigned each year since 2007.

Chart 5 reflects the average amount paid to a KIZ company who either sold or assigned its Tax Credits.

CHART 3

Number of Tax Credit Sales/Assignments by Year

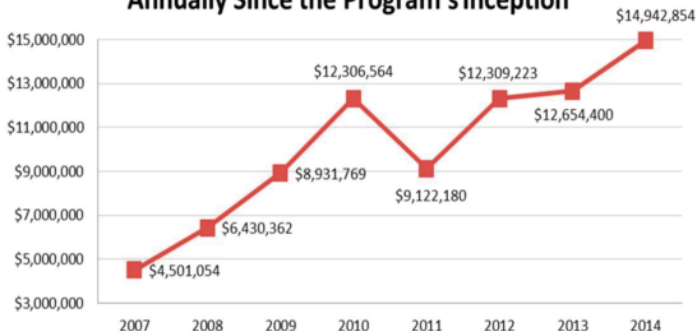

CHART 4

Amount of KIZ Tax Credits Sold/Assigned Annually Since the Program's Inception

Summary

The KIZ Tax Credit program continues to be a critical component of Pennsylvania’s economic development resources. Over the past nine years, the KIZ Tax Credit program has infused nearly \$73.8 million into qualified KIZ companies. The new capital derived from the sale of the unused KIZ Tax Credits has increased the ability of these early-stage companies to grow, hire new employees and expand to meet the demands of their customers.

CHART 5

Yearly Averages of Amounts Paid for KIZ Tax Credits Sold/Assigned (In Cents per Dollar)

“This is truly a great honor that we receive the KIZ Tax Credit. There are many innovative companies within the Commonwealth of PA, and the Tax Credit will allow us to hire additional technical employees that will solidify our development of new optical test and measurement equipment. The Tax Credit will [also] enable us to innovate by means of continued research and development. In addition, we plan [on] using the cash flow generated by the Tax Credit to continue our current patent processes and increase deployment of new optical products to the market.”

- Tom Depaolantonio, President of Precision Rated Optics in Breinigsville, PA (Greater Reading KIZ)
