2015 Annual Legislative Report

on the Keystone Innovation Zone Tax Credit
and Tax Credit Sale Programs

Commonwealth of Pennsylvania

Tom Wolf, Governor

Department of Community & Economic Development

Dennis M. Davin, Secretary

www.newPA.com

2/12/2016

The Department of Community & Economic Development is pleased to present the 2015 Annual Legislative Report on the Keystone Innovation Zone (KIZ) Tax Credit and Tax Credit Sale programs.

The KIZ Tax Credit Program is putting Governor Wolf’s goal of creating a pro-growth business climate in Pennsylvania into action. With a more than 5 percent increase in approved companies, the program awarded nearly \$18 million in tax credits in the 2014-2015 fiscal year. These 239 KIZ-qualified startup companies and entrepreneurs commercialized many new technologies and Pennsylvania-made products.

The energy, enthusiasm, and innovation of these KIZ companies — along with the network of partners in the KIZs — are creating a more vibrant economy by accelerating the growth of technology-based business creation.

Overview

Administered by the Ben Franklin Technology Development Authority (BFTDA), the Keystone Innovation Zone Tax Credit (Tax Credit) program provides for the awarding of up to \$25 million annually in tax credits to qualified KIZ companies. Eligible KIZ companies can receive tax credits for up to \$100,000 annually. To be eligible, a company must be a qualified KIZ company and meet the following requirements:

- 1) Be a for-profit entity located within the geographic boundaries of a BFTDA-designated KIZ
- 2) Demonstrate that it has been in operation for less than eight (8) years
- 3) Operate within one (or more) of the targeted industry sectors identified by the KIZ and its regional partnership
- 4) Provide semi-annual reporting measures to the Department of Community and Economic Development (DCED) through its KIZForce reporting tool
- 5) Meet any other requirements as specified by DCED

Since the program launched in 2006, hundreds of Pennsylvania’s early-stage technology companies have received tax credits through this innovative initiative. Recipient companies have five years from the date of the award to use, sell, or assign the KIZ Tax Credits. KIZ companies choosing to sell their unused tax credits can either sell them directly or secure a third-party independent agent to facilitate the transaction on their behalf.

KIZ Tax Credit Awards

Chart 1 demonstrates the number of awards made to KIZ companies between 2006 and 2015, while Chart 2 demonstrates the dollar amount of tax credits awarded to the KIZ companies during the same period. Appendix A highlights companies' names, KIZ-affiliation, and the dollar amount of KIZ Tax Credits awarded in 2015.

CHART 1

KIZ Companies Awarded KIZ Tax Credits by Year

CHART 2

Amount of KIZ Tax Credits Awarded by Year

“Net Driven is a thriving software-as-a-service company based in Scranton, Pa. Through the help of the KIZ Program, our company has tripled in growth and has added over 50 new jobs over the last several years. Without the help we received through the KIZ program, we would not have been able to grow as fast or add nearly as many positions in such a short period of time.”

— Patrick W. Sandone, III, President and Founder of Net Driven in Scranton, Pa. (Lackawanna County KIZ)

KIZ Tax Credit Sales/ Assignments Program

This component of the KIZ Tax Credit program gives KIZ companies the opportunity to sell or assign any of their unused tax credits. The amount generated on the sale of the credit is determined by several factors, including if the company uses the services of a broker, how quickly the sale is completed, or if the sale is part of a “bundled sale” — often coordinated by a broker. KIZ companies historically have received between 88 cents and 92.8 cents on the dollar when selling their tax credits. Appendix B details the names of the buyers and the amounts of KIZ Tax Credits they received through this process in 2015.

Chart 3 reflects the number of sales and/or assignment applications approved by DCED each year since the Sales/Assignment program launched in 2007.

Chart 4 identifies the amount of KIZ Tax Credits sold or assigned each year since 2007.

Chart 5 reflects the average amount paid to a KIZ company who either sold or assigned its Tax Credits.

CHART 3

Number of Tax Credit Sales/Assignments by Year

CHART 4

Amount of KIZ Tax Credit Sold/Assigned by Year

Summary

The KIZ Tax Credit Sales program continues to be a critical component of Pennsylvania’s economic development resources. Over the past nine years, the KIZ Tax Credit Sale program has awarded more than \$87.3 million to qualified KIZ companies. The new capital derived from the sale of the unused KIZ Tax Credits has increased the ability of these early-stage companies to grow, hire new employees, and expand to meet the demands of their customers.

CHART 5

Yearly Averages of Amounts Paid for KIZ Tax Credits Sold/Assigned In Cents per Dollar

“The KIZ tax credit will help JBS Science invest in the next generation of cancer biomarker detection by providing the funds necessary to purchase necessary reagents, run expensive sequencing analysis, and provide funds for bioinformatics experts crucial to the advancement of the technology.”

- Melisa Pardes, Office Manager & Graphic Designer of JBS Science in Doylestown, Pa. (Bucks County Biotechnology KIZ)
