

# Approved Exemption Requests By County

It is important to know that all business activities are generally governed by the Governor's and Secretary's business closure orders. These orders referenced the list of industry sectors defined by the United States Census Bureau, known as the North American Industry Classification System (NAICS), and marked individual subsectors as "open" or "closed" based upon whether those subsectors' businesses are categorically life-sustaining, or otherwise necessary to assist in battling this pandemic.

For businesses that must be closed per the list, the administration created the exemption process to provide a means to identify those businesses within generally closed categories that are life-sustaining or are necessary to support the supply chain to other businesses that are open and provide life-sustaining goods or services.

The justification in each exemption request was reviewed to determine whether the specific operations described were life-sustaining or necessary to support a life-sustaining business. If the request met this standard, the business was provided an exemption from the closure order for the specific activities described in the request. It is important to remember that exemptions are limited to the activities that businesses specifically referenced in their request for an exemption. Following is a list of business that received exemptions in this manner. The following list includes businesses that received exemptions.

<b>BUSINESS COUNTY</b>	<b>BUSINESS NAME</b>
ADAMS	ALEXANDER'S WELL DRILLING
	ALLEGHENY SOLID SURFACE TECHNOLOGIES
	ALLEN L. JEFFCOAT
	ARCTIC AIRE
	BLUE COLLAR RESTORATION SERVICES LLC

RE: Application of «BusinessName» to Continue Business Operations at its Physical Locations

Dear «ContactFirstName» «ContactLastName»:

By Executive Order dated March 19, 2020, and pursuant to powers granted to us by law, we ordered that no person or entity shall operate a place of business that is not a life-sustaining business, regardless of whether the business is open to members of the public. These orders (the "COVID-19 Orders") are necessary to stop the spread of the novel coronavirus COVID-19.

In response to your request for an exemption from the applicability of the COVID-19 Orders, pursuant to the powers granted to us to protect the legitimate business, industry, and commerce of the Commonwealth, and to prevent and control the spread of disease, it has been determined that the business identified above, to the extent described in your application, plays a critical role in the manufacture and supply of goods and services necessary to sustain life, and may continue to operate at the physical location identified in your application.

This exemption approval is subject to continuance of and compliance with the social distancing and other mitigation measures to protect employees and the public, including virtual and telework operations (e.g. work from home) as the primary option when available, which were submitted with your request and which have been established by the Department of Health and the Centers for Disease Control and Prevention to-date and going forward. In-person work at a business site is only to be performed on the most limited basis possible to deliver the services or goods of your life-sustaining business.

Sincerely,

  
TOM WOLF  
Governor

  
RACHEL L. LEVINE, M.D.  
Secretary of Health
