Public Benefit Standard - Business Disruption Waiver		Document assistance was provided due to business disruption related to coronavirus (in which case, no monetary standard applies because HUD has determined that there is sufficient public benefit derived from the provision of assistance to stabilize or sustain businesses in the grantee's jurisdiction that suffer disruption due to coronavirus, and that facilitation of business assistance for this purpose may help to avoid complete economic collapse within the grantee's jurisdiction).
Income Verification (Job Creation/Retention)	LMI Persons - Individuals who reside in a family whose total annual income is at or below 80% of median for County/MSA.	Grantees and employers may consider individuals that apply for or hold jobs to be members of one-person families for activities that prevent, prepare for, and respond to coronavirus presumption. The recipient may substitute records showing the type of job and the annual wages or salary of the job in lieu of maintaining records showing the person's family size and income to demonstrate that the person who filled or held/retained the job was a low- or moderate-income person referenced in 24 CFR 570.490. HUD will consider the person income-qualified if the annual wages or salary of the job is equal to or less than the Section 8 low-income limit established by HUD for a one-person family.
Duplication of Benefits	N/A	Must have duplication of benefits procedures for each activity/program. A grantee is required to develop and maintain adequate procedures to prevent a duplication of benefits that address (individually or collectively) each activity or program. A grantee's policies and procedures are not adequate unless they include, at a minimum: (1) a requirement that any person or entity receiving CDBG-CV assistance (including subrecipients and direct beneficiaries) must agree to repay assistance that is determined to be duplicative; and (2) a method of assessing whether the use of CDBG-CV funds will duplicate financial assistance that is already received or is likely to be received by acting reasonably to evaluate need and the resources available to meet that need.
