## Special Industry Responses By County

It is important to know that all business activities are generally governed by the Governor's and Secretary's business closure orders. These orders referenced the list of industry sectors defined by the United States Census Bureau, known as the North American Industry Classification System (NAICS), and marked individual subsectors as "open" or "closed" based upon whether those subsectors' businesses are categorically life-sustaining, or otherwise necessary to assist in battling this pandemic.

For businesses that must be closed per the list, the administration created the exemption process to provide a means to identify those businesses within generally closed categories that are life-sustaining or are necessary to support the supply chain to other businesses that are open and provide life-sustaining goods or services.

As the administration refined its process for responding to requests for exemption, it developed a means to address requests from businesses that are subject to guidance that is specific to their industries. If the justification or business description contained certain keywords that identified it as being in a special industry, it received a special industry letter. The following list includes business that received such guidance.

BUSINESS COUNTY	BUSINESS NAME	SPECIAL RESPONSE
ADAMS	AGF ASPHALT SEAL COATING LLC	CONSTRUCTION
	AIRTRON MID ATLANTIC	CONSTRUCTION
	ALLEN BECKETT CONSTRUCTION	CONSTRUCTION
	ARS	CONSTRUCTION
	B&K ROOFING LLC	CONSTRUCTION

RE: Application of «BusinessName» to Continue Business Operations at its Physical Locations: Clarification Regarding Construction Activities (Request #: «SubmissionID»)

Dear «ContactFirstName» «ContactLastName»:

By Executive Order dated March 19, 2020, the Governor and Secretary of Health ordered that no person or entity shall operate a place of business that is not a life-sustaining business, regardless of whether the business is open to members of the public. These orders (the "COVID-19 Orders") are necessary to stop the spread of the novel coronavirus COVID-19.

You submitted a request for an exemption from the applicability of these orders for certain construction activities and the reference number pertaining to that request is listed above.

Please note that effective May 1, 2020, construction may proceed throughout the Commonwealth in strict accordance with the guidance published by the administration at <a href="https://www.governor.pa.gov/wp-content/uploads/2020/04/20200423-Construction-Industry-Guidance.pdf">https://www.governor.pa.gov/wp-content/uploads/2020/04/20200423-Construction-Industry-Guidance.pdf</a>.

Compliance with these measures is necessary to protect employees and the public, and virtual and telework operations (e.g. work from home) should be the primary option when available. In-person work at a business site is only to be performed on the most limited basis possible to deliver the permissible services or goods.

You have received this letter because a review of your request indicated that you are seeking to conduct construction activities (including site preparation, engineering, inspection, or similar construction site activities). This letter replaces any previous communication that you may have received regarding the above-referenced request. If you are not engaged in or seeking to engage in construction, you may disregard this letter.

For further information regarding what operations are or support a life-sustaining business sector or to review Frequently Asked Question (FAQs), please see the Department of Community and Economic Development's guidance available at <a href="https://dced.pa.gov/resources">https://dced.pa.gov/resources</a>.

Sincerely,

TOM WOLF Governor

RE: Application of «BusinessName» to Continue Business Operations at its Physical Locations: Clarification for Automobile Dealers (Request #: «SubmissionID»)

Dear «ContactFirstName» «ContactLastName»:

By Executive Order dated March 19, 2020, and pursuant to powers granted to by law, the Governor and Secretary of Health ordered that no person or entity shall operate a place of business that is not a life-sustaining business, regardless of whether the business is open to members of the public. These orders (the "COVID-19 Orders") are necessary to stop the spread of the novel coronavirus COVID-19.

You previously submitted a request for an exemption from the applicability of these orders. You may have been granted an exemption, informed that no exemption was required, or denied an exemption. Regardless, we are providing specific guidance with regard to your particular industry below.

Automobile dealers may not continue physical sales and leasing operations, but certain activities at automobile dealers, such as repairs to passenger and commercial vehicles, may continue. New and used sales at automobile dealerships are not permitted.

With respect to online sales, any business that has the ability to operate remotely and provide sales via internet can operate. However, unless necessary paperwork was completed prior to vehicle dealerships having been declared non-life sustaining, a dealership cannot complete the entire process in Pennsylvania remotely. Pennsylvania requires a notary to be physically present to verify the identity and signature of the purchaser and under Pennsylvania law, remote notarization is not currently authorized. Therefore, while internet sales are allowed, an exemption would be required to complete the transaction at a physical location. At this time, Department of State only permits electronic notary for real estate transactions.

For further information regarding what operations are or support a life-sustaining business sector, please see the Department of Community and Economic Development's guidance available at <a href="https://dced.pa.gov/resources">https://dced.pa.gov/resources</a>.

Your operations are subject to continuance of and compliance with the social distancing and other mitigation measures to protect employees and the public, including virtual and telework operations (e.g. work from home) as the primary option when available, which were submitted with your request and which have been established by the Department of Health and the Centers for Disease Control and Prevention to-date and going forward. In-person work at a business site is only to be performed on the most limited basis possible to deliver the services or goods of your life-sustaining business.

Sincerely,

TOM WOLF Governor

RE: Application of «BusinessName» to Continue Business Operations at its Physical Locations: Clarification for Golf Courses (Request #: «SubmissionID»)

Dear «ContactFirstName» «ContactLastName»:

By Executive Order dated March 19, 2020, and pursuant to powers granted to by law, the Governor and Secretary of Health ordered that no person or entity shall operate a place of business that is not a life-sustaining business, regardless of whether the business is open to members of the public. These orders (the "COVID-19 Orders") are necessary to stop the spread of the novel coronavirus COVID-19.

You previously submitted a request for an exemption from the applicability of these orders. You may have been granted an exemption, informed that no exemption was required, or denied an exemption. Regardless, we are providing specific guidance with regard to your particular industry below.

Golf courses are "amusement and recreation activities" and are CLOSED per the Industry Operation Guidance. Nevertheless, certain activities at golf courses, such as landscape maintenance and other "services to buildings and dwellings," may continue ONLY TO THE EXTENT that they are necessary to prevent deterioration of property condition.

For further information regarding what operations are or support a life-sustaining business sector, please see the Department of Community and Economic Development's guidance available at <a href="https://dced.pa.gov/resources">https://dced.pa.gov/resources</a>.

RE: Application of «BusinessName» to Continue Business Operations at its Physical Locations: Clarification Regarding Legal Services (Request #: «SubmissionID»)

Dear «ContactFirstName» «ContactLastName»:

The Commonwealth is in receipt of your law firm's request for an exemption from the COVID-19 business closure orders that were issued on March 19, 2020.

Please note that the Administrative Office of Pennsylvania Courts has recently refined its order relating to the practice of law during this emergency, and the Governor's Industry Operations Guidance document and the Department of Community and Economic Development's Frequently Asked Questions document have been amended in accordance with that order.

In particular, although law offices remain generally closed and lawyers and staff should continue to perform all work remotely to the extent possible, lawyers and staff may access physical offices on a limited basis as necessary to render legal services that cannot practically be completed through the use of advanced communication technology, and which are being rendered to comply with a court directive or deadline, or to meet client needs that are critical to the client's health or safety, including, but not limited to: matters of healthcare, incompetence, incapacitation, end-of-life decision making, government benefits necessary to sustain life and access healthcare and income, or legal functions necessary for the operation of government at all levels.

Any in-person activity shall be subject to the Orders of the Secretary of Health providing for building safety measures (issued April 5, 2020) and business safety measures (issued April 15, 2020), including any amendments, and related Department of Health guidance. To the extent that law firm personnel, like the personnel of other non-life-sustaining businesses, must work on-site in order to process payroll and insurance claims, maintain security, and engage in similar limited measures on an occasional basis, such activities continue to be permitted. However, social distancing and other health and safety precautions must be observed in the office, and telework (i.e., working from home) should be employed whenever possible.

Please note that the foregoing supersedes any exemption response that you may have previously received. For further information regarding what operations are or support a life-sustaining business sector or to review Frequently Asked Question (FAQs), please see the Department of Community and Economic Development's guidance available at <a href="https://dced.pa.gov/resources">https://dced.pa.gov/resources</a>.

Sincerely,

TOM WOLF Governor
