202205312828	Johnstown Area Regional Industries Countywide Project, Cambria County	NAP	\$19,250	Johnstown Area Regional Industries seeks to provide disadvantaged residents with access to training programs and support services that will enable them to transition out of poverty. The model factors in current recruitment needs of employers as well as the need to build workforce capacity. Paramedic training was selected based on employer responses from one-on-one discussions with emergency medical providers. The region is experiencing a crippling shortage of paramedics, which threatens to undermine the emergency management system by slowing response time. The program will enable eligible adults to acquire the skills needed to obtain employment in emergency rooms and ambulance services. In addition, the project will provide emergency medical services providers with qualified workers to fill critical job openings while creating a pipeline of workers that are readily available to offer medical assistance in emergency and disaster situations. Funds will be used to provide an 1,800-hour training course, clinical on-site work experience, career services assistance and job placement for four low-skilled, low-income individuals residing in the targeted distressed neighborhoods. The funds will cover the tuition, class materials, care kits, testing fees, and clinicals for the students.	1st Summit Bank Croyle-Nielsen Therapeutic
202205312957	Junior Achievement of Western Pennsylvania, Inc. Kennedy Township, Allegheny County	NAP	\$13,750	Through Junior Achievement (JA) programs, students are introduced to programs using hands-on, interactive materials taught by a dedicated classroom mentor virtually, hybrid, or in person. JA educates students in grades K-12 on money management and career preparation, reinforces knowledge, and changes their behavior so students can have an empowered attitude to succeed professionally and financially in life after school. By providing JA programs to 555 students within the Sto-Rox school district, students have the opportunity to look beyond the classroom and focus on their future. Funds will be used to provide program-related materials, license fees, training and logistics, and cost of programming.	Tri-State Capital Bank
202205312951	POWER Swissvale Borough, Allegheny County	NAP	\$165,000	Research has shown that women often use drugs differently, respond to drugs differently, and can have unique obstacles to effective treatment as simple as not being able to find childcare or being prescribed treatment that has not been adequately tested on women. POWER distinguishes itself by providing the full continuum of woman-focused, trauma-informed treatment. Many women face barriers to treatment including lack of coordination between services, complicated criteria and processes, and distance between providers. These obstacles can be resolved by locating the services in one location, the POWER Campus. The POWER Campus will transform the way women access and receive behavioral health treatment. POWER is establishing a campus to bring all the organizations' services together in one geographic location. The campus will include partner health and human service agencies that will provide services like childcare, health care, and workforce development to our clients and the broader community. Partners will bring rental revenue to POWER, increasing sustainability. The campus project will renovate one building. It will improve four organizations (POWER and three rental partners). Funds will be used for the construction of a new accessible vestibule entry to the building as well as a green roof to reduce the cooling load in the summer and help manage stormwater. 202205312913	Technology & Entrepreneurship Center Indiana Borough, Indiana County	NAP	\$54,945	Since the closing of the Robertshaw Business Incubator at IUP, the Technology and Entrepreneurship Center (TEC) is the only business incubator in Indiana County. At present, the tech-situation in the county can be measured by small enrollment in formal tech classes. There is no current participation in Web 3.0 technologies and only minimal services available in Web 2.0 technologies such as website construction and design and digital marketing with social media. There are no group meetings or local spaces available for networking, bonding, and growing tech participants. Finally, there is no known engagement with 3D spaces or participation in XR technologies (VR and AR). The TEC seeks to advance these measures. Funds will be used to help purchase large monitors and high-end graphics cards which will be used for software construction, including 3D modeling, 3D scanning, interactive media development, and digital media creation. Remaining funding will support the activities of the project.	CNB Bank
202205313153	The Pittsburgh A. Philip Randolph Education Fund Pittsburgh, Allegheny County	NAP	\$41,250	The Pittsburgh A. Philip Randolph Education Fund (APRI) seeks to help facilitate the inclusion of residents from the Northside and Hill District into the new economic environment produced by job growth in construction, manufacturing, energy and related industry sectors. With recruitment and screening support from community-based partners, APRI will train individuals recruited from these communities to take advantage of the job opportunities associated with employer and union demand. Funds will be used to offer digital skill classes at the Beaver location and will upgrade classroom equipment.	UPMC Health Benefits
202205313004	Neighborhood Resilience Project Pittsburgh, Allegheny County	SPP	\$56,250	The Neighborhood Resilience Project plans to utilize their newly renovated clinic space with two medical exam rooms and a two-room dental suite to increase the capacity of the organization to provide free primary, behavioral and dental care to the un-insured across the region. The Free Health Center sees patients from across the county, and there is a great need for this Free Health Center in the region. The Neighborhood Resilience Project Free Health Center also provides all of the prescriptions, labs and follow up orders at no cost to the patients. As renovations to the Free Health Center come to an end, staff is working to plan the schedule of volunteer clinicians, to build relationships with specialty clinicians, and to recruit patients. Funds will be used to support the staffing of this project and for medical provision.	UPMC Health Benefits
202205313107	Pennsylvania Women Work Pittsburgh, Allegheny County	SPP	\$37,500	PA Women Work plans to hold four New Choices sessions and three Customer Service sessions to provide residents of Larimer, Homewood and East Liberty in the UPMC Neighborhood Center with workforce development that prepares them for employment. 202205271712	Trade Institute of Pittsburgh Pittsburgh, Allegheny County	SPP	\$82,500	Trade Institute of Pittsburgh (TIP) provides training for individuals with barriers to employment to meet a growing need for skilled tradespeople in the construction fields. In addition to real world application of the masonry skills developed in the first half of the program, students develop transferable skills that include problem-solving, communication, adaptability, teamwork, and time-management. Graduates then apply these skills across the trades and beyond, ensuring economic mobility. Project Reach revitalizes under-resourced neighborhoods. Since TIP students come from many of these communities, this provides a powerful opportunity for students to re-establish their relationship with their communities. The goal of Project Reach is to provide on-the-job learning experiences to 100 individuals. The project will track starting wage, employment retention rate at 2nd and 4th quarters following placement, and skill gains as reflected by credentialing or promotion. Funds will be used to cover the cost of the Masonry Instructor's time dedicated to Project Reach over the course of one year as well as costs associated with one week of training for seven students in the field, and costs of materials. 202205313069	Pittsburgh Community Reinvestment Group Pittsburgh, Allegheny County	SPP	\$51,750	In partnership with Pittsburgh Community Reinvestment Group (PCRG), Rising Tide, Rebuild Together Pittsburgh, religious organizations, and staff East Hills Consensus Group (EHCG) will be developing programs that help residents and prevent evictions and foreclosures. Through this work, blighted structures will become an asset to the neighborhood instead of a liability. The EHCG staff will engage residents so that the neighborhood has the capacity to implement its new community vision plan through strategic initiatives. To prevent evictions, they will hold information sessions so that residents are aware of their rights and of the avenues that exist for them to stay in their homes. Community partners will be able to maintain the communal space for existing residents and to attract new homeowners by improving both the physical structures and health outcomes. There will be an ongoing social media strategy and monthly meetings to make sure that residents know what is going on and have a change to comment and express needs and concerns. Funds will be used to bring on full time staff.	S&T Bank SSB Bank
