Background
In the early to mid 1990’s the Commonwealth of Pennsylvania initiated an aggressive campaign to combat homelessness. In addition to state dollars, many of Pennsylvania’s larger communities received substantial federal dollars for homeless housing and services. However, due to limited capacity, many of the state’s rural areas were unable to tap into these federal resources.

In response, in 1997, Pennsylvania initiated the Regional Homeless Assistance Process (RHAP) to cover the 51 rural counties that comprised the “balance of the state.” The process began with the formation of the PA Homeless Steering Committee, with representation from the Department of Community and Economic Development, the Department of Public Welfare, the Pennsylvania Housing Finance Agency, and the Department of Military and Veterans Affairs.

The Steering Committee then formed four separate Regional “Continuums of Care” to cover the participating counties: Northeast, Southwest, Northwest, and Central-Harrisburg. Each region established a Regional Homeless Advisory Board (RHAB) with representatives of 10-15 local entities involved in housing and homeless services. In the year 2000, the chairpersons of all four RHABs became Steering Committee members and, during 2001, 2002 and 2003, representatives of the PA Rural Development Council, the Center for Rural Pennsylvania, the PA Department of Health Division of HIV/AIDS, the Department of Labor and Industry, and the Office of Children, Youth and Families, were added to the Steering Committee to round out representation among all relevant state agencies. During that time, three more counties joined the Regional Homeless Assistance Process, bringing the number of participating counties to 54.

Finally, in 2004 an Entitlement Committee was established to bring the 13 Participating Jurisdictions (PJs) into the state process. This Committee meets regularly to discuss issues of common interest, and the chairperson serves on the Steering Committee, ensuring representation from all 17 of Pennsylvania’s Continuums of Care—from urban and suburban as well as rural communities.

Today the PA Homeless Steering Committee:
- Serves as a forum for information sharing;
- Assesses and formulates state policy;
- Reviews and develops procedures for the RHAP Continuum of Care application process;
- Facilitates the collection of data on homelessness; and
- Directs and provides technical assistance to the Regional Homeless Advisory Boards and individual project applicants.

Following are the Vision, Strategies, Goals, Objectives and Action Steps for implementing Pennsylvania’s Five Year Agenda to End Homelessness:

January 2010

Vision

The following vision statement was reviewed and approved by the PA Interagency Council on Homelessness in June 2004 and guides the Agenda for Ending Homelessness in Pennsylvania.

Vision Statement:
Pennsylvania envisions a state where there are no homeless individuals or families. Each person will have the supports needed to live as independently as possible in permanent housing of his or her choice. The mainstream services will be adequate, well-coordinated, consumer driven, and recovery-oriented. All housing and services will be offered with dignity and respect free of discrimination, and will provide hope.

Strategies
The Agenda for Ending Homelessness in Pennsylvania is based on three state-driven strategies to prevent and end homelessness throughout Pennsylvania. These strategies serve as the backbone for the implementation of the Plan’s Action Steps, which will occur at both the state and local levels.

To improve coordination between state agencies and promote targeting of resources consistent with the state vision

A central part of the Agenda is to assess the effectiveness of the current state and local housing and human service delivery systems and to ensure that they support the above vision. By breaking down the “silos” through which resources are currently being funneled, Pennsylvania will be better able to ensure that resources are targeted to where they are most needed and most effective. In addition to key state agencies and offices, it is recognized that the support of county commissioners and other local officials is critical to the success of this effort. Therefore, financial and other incentives will be necessary to create a targeted approach to preventing and addressing homelessness.

To foster and support local efforts to end homelessness

Given the size and diversity of the Commonwealth, the health of the local network of homeless housing and service providers is a critical factor in successfully implementing the Agenda. Since every region of the state is different, the Agenda must be designed to support local participation and accommodate regional differences, while meeting state goals and objectives. Training and technical assistance are needed in order to build local capacity, especially in areas of the state where resources are limited.
To promote recovery-oriented housing and services for homeless individuals with serious mental illness, substance abuse and/or co-occurring disorders

The Commonwealth of Pennsylvania and its Office of Mental Health and Substance Abuse Services has embraced the recovery model for the provision of housing and services to individuals served through the Mental Health System, including homeless individuals and families. The goals and objectives in this report for preventing and ending chronic and episodic homelessness reflect the state’s commitment to the recovery model for all people with serious mental illness.

Five Year Goals, Objectives and Action Steps
Based on the Commonwealth’s desire to meet its goal of ending chronic homelessness as well as its recognition of the importance of addressing homelessness among Pennsylvania’s families and children, this Agenda addresses all homeless populations and subpopulations. It recognizes the importance of not only ending homelessness as quickly as possible but also of preventing homelessness. This is expressed in the following four goals outlined below:
